

## Compagnie M. fabric flower tutorial

In this tutorial I show you how to make little fabric flowers to pimp your favourite handmade garments.

Cut one rectangle: 7,5 cm high (3 in) x 25cm (10 in) wide (seam allowance included).

Fold in two and sew at 1cm (3/8 in) from the side to create a loop.

Fold the loop lengthwise. Wrong sides of the fabric together.

Now we'll gather the bottom side of the loop (the open side). Add a stitch line to this side (loose ends, long stitch length, don't baste stitch the ends.)

Pull the loose ends to gather the fabric. Make a knot to keep the fabric in place. Front view of the result:

Back view of the result:

First attach the flower (without button) to your garment (by hand or with your sewing machine). Afterwards add a button to cover up the raw edges and the stitches. Ready!
