

Compagnie M. LEWIS sewing pattern

Required materials:

- Main, contrasting and lining fabric according to chart below.
- Interfacing and batting according to chart below.
- Coordinating thread for main, contrasting, lining fabric and piping (optional).
- Open end zipper: length according to chart below (optional)
- 2 buttons for the pockets (optional)
- 5 buttons for the button closure option (optional)
- 30 cm (10in) fusible interfacing (like Vlieseline H200 - H210)
- Piping (optional): Normal piping for lightweight fabrics or thick piping when working with heavy weight fabrics, OR make your own piping using cord and bias binding. You can find a free tutorial on the website.
- Ribbed knit for cuffs
- Zipper sewing foot

Fabric recommendations:

The Lewis coat is a winter coat so for the main fabric I recommend a warm winter fabric like wool, flannel or corduroy. For a beautiful result it's important that your fabric doesn't stretch.

For the lining you need two types of fabrics: a contrasting fabric like cotton, terry fabric, sweater knit for a beautiful result. For the sleeves I recommend using lining fabric.

Main fabric

If you choose the hood option, you'll need 20cm (10in) extra.

Interfacing & batting:

Interfacing: ALWAYS ADD INTERFACING!

To retain the shape your coat you need a heavy weight, fusible interfacing that has stabilizing threads along the grain like Vlieseline H410 or 855F Tailor's Elite. NOTE: Vlieseline H200 or H210 is not a good alternative.

Sizing chart:

To pick the right size, you have to measure your child first. The chest and height measurements are the most important ones. You should choose the size according to your child's chest measurement and then adjust the length, armpit and sleeves if necessary.

To change the length, you have to adjust the following pattern pieces: pocket, back, sleeve, front and back lining, button placket, front facing and zipper placket. Measure the difference in length and compare it to the size that corresponds to the height of your child. This is the amount you have to add / subtract at the hem.
